

Clinical Facial

Skin is cleansed then gently exfoliated with a natural fruit enzyme. After a relaxing steam, extractions are performed to cleanse the pores and remove impurities. Bringing the treatment to a conclusion, a customized facial mask is deeply infused into the skin with ultrasound. This procedure forces nutrients into the skin and stimulates collagen production in the dermal layers. Allow 60 minutes.\$150
 Package of six facials.....\$775

Deep Cleansing Facial

This facial follows the same steps as the clinical facial; however, an extended period of time is allotted for extractions. Allow 75 minutes.\$165
 Package of six facials.....\$850

Salicylic Acid Peel

The Salicylic Acid Peel exfoliates the dead outer layer of skin, combats bacteria and acne. Exfoliation may last 3-5 days depending on the skin. This peel is beneficial when used in conjunction with a home care acne program. Allow 30 minutes.....\$150
 Package of six peels.....\$775

Microdermabrasion

Microdermabrasion safely resurfaces the superficial layers of the skin utilizing crystals to gently polish and remove dead skin cells. This is an excellent treatment for reducing the appearance of scarring, fine lines, wrinkles, and sun damage or for anyone who wants to achieve an overall fresh, healthy-looking glow.

Single session (30 minute)\$150
 Six session package.....\$810
 Single session with a facial (80 minutes)\$250
 Six sessions with a facial package..... \$1400

Glycolic Acid Peel

Glycolic acid is a natural fruit acid, which is derived from sugar cane. This is an Alpha- Hydroxy acid, which is used to exfoliate the top layer of damaged epidermal skin cells.

Glycolic Acid Peel (30 minutes)\$125
 Glycolic Acid series of six peels.....\$625
 Glycolic with a Facial (60 minutes).....\$225

MicroPeel®

The MicroPeel® is a three-step process that removes a micro-thin top layer of dead skin. The skin is lightly exfoliated by Dermaplaning followed by an application of Alpha and Beta hydroxy acids. To conclude, Ultrasonic phonophoresis is used to enhance the penetration of nutrients, forcing them deep into the skin to stimulate collagen within the dermal layers. Allow 60 minutes.\$175
 Package of six treatments.....\$900

Jessner's Peel

The Jessners Peel uses a combination of resorcinol, lactic acid and salicylic acid to exfoliate the outer layers of skin cells and stimulate collagen regeneration in the deeper cells. The results are a smooth more youth-full appearance free of discoloration and impurities. Allow 30 minutes.\$200
 Package of 4 peels.....\$675

South Beach Peel

The South Beach Peel uses TCA, salicylic acid and retinoic acid to achieve a deeper resurfacing with minimal downtime. Combats fine lines, wrinkles, uneven pigment and dull skin..... \$300

TCA Peel

The Trichloroacetic acid peel removes thin surface layers of aged and damaged skin. Exfoliation lasts 10-15 days. This is an excellent treatment for blemish-prone skin, pigmentation problems, sun damage or general skin laxity. Allow 60 minutes.\$800
